Pertanyaan Umum

WHAT IS PARTIAL STATUS?

Partial Status is when we partially refund the remains of an order. Sometimes for some reasons we are unable to deliver a full order, so we refund you the remaining undelivered amount. Example: You bought an order with quantity 10 000 and charges 10\$, let's say we delivered 9 000 and the remaining 1 000 we couldn't deliver, then we will "Partial" the order and refund you the remaining 1000 (1\$ in this example).

Instructions

Pusher Channels provides realtime communication between servers, apps and devices. When something happens in your system, it can update web-pages, apps and devices. When an event happens on an app, the app can notify all other apps and your system

Get your free API keys [Create an account](#), then create a Channels app. Go to the "Keys" page for that app, and make a note of your app_id, key, secret and cluster.
